

## Recently Diagnosed with DDX3X?

Hello and welcome to the DDX3X tribe! If your child has just been diagnosed with DDX3X syndrome, please know you have landed in a place of people who understand. If you want to get involved, here are a few steps to get started:

### Join the “Gene DDX3X” Facebook group

Find support, resources, child updates, and parent questions from other members of the DDX3X community when you join our DDX3X Facebook group.

### Participate in our next Family Day event

Our annual Family Day event allows you to meet others in the community, hear presentations from researchers, and more! Visit our “Family Conference” page to learn more.

### Like the “DDX3X Foundation Research” Facebook page

Get more information about research, the patient registry, and other specific DDX3X Foundation updates when you like our Research Facebook group.

### Enroll in Sherr’s Brain Development Research Study

Dr. Elliott Sherr is leading the way with DDX3X research. Find more information about the study and complete a form to enroll your child on the “Recently Diagnosed” page of our website.

### See what we currently know about DDX3X Syndrome

Read articles summarizing what DDX3X is and what we’ve learned about it so far on the “Resources for Families” page of our website.

### Enroll in the Mount Sinai Study

Join this study to accelerate rare disease research and track the natural history of the five single-gene causes of autism, including DDX3X. For more details, visit our “DDX3X Research” page.

### Join the Patient Registry

Filling out this form will help researchers learn about and understand the DDX3X gene mutations that affect our children. You can find the form under the “Registry” page on our website.

### Arrange for a Skin Biopsy

One parent and your child can have a skin biopsy performed to support current DDX3X research. Learn more about this process on our “DDX3X Research” page.

### Bookmark DDX3X.org

Stay updated on new information about DDX3X Syndrome by saving our website to your browser.

### Shop on Amazon Smile

Please consider shopping using Amazon Smile, where all proceeds will support the DDX3X Foundation and our research.

### Follow DDX3X on Instagram

Follow us on Instagram to join our community! Email us at [beth@ddx3x.org](mailto:beth@ddx3x.org) with your child’s first name, date of birth, and picture if you want their story to be featured.

### Fundraise for the DDX3X Foundation

Please considering supporting Dr. Sherr’s current research to find a drug treatment for girls with the DDX3X mutation. You can show your support by visiting the “Donate” page on our website.
